Core strengths: Computer skills, problem-solving, attention to detail, creative thinking, team communication, customer service, fast learner, troubleshooting and puzzle-solving

PERSONAL PROJECTS

Interactive 3D Portfolio Website **| Three.js, JavaScript, HTML, SCSS, Blender**

- Built an interactive 3D room featuring selectable objects, custom UI, image displays, audio controls and a day/night cycle.
- Tested features through repeated iterations, identified and fixed bugs, and improved the user experience.

3D Design and Game Prototyping **| Blender, Unity, C#**

- Created 3D environments and assets while developing practical knowledge of scene layout, asset placement, scripting, gameplay elements and game-design workflows.
- Tested and iterated on visual and technical problems to improve scenes and interactions.

Personal PC and Technical Support **| Windows, Ubuntu Server, hardware**

- Built and maintain a personal PC, developing practical hardware, software and troubleshooting knowledge.
- Repurposed an older laptop as an Ubuntu Server and provide informal IT assistance to family and friends.

EXPERIENCE

BIG W **| Fill Team Member / Supervisor | Apr 2022 - Present**

- Maintain stock accuracy, communicate with team members and customers, and complete replenishment work within fast-paced retail deadlines.

Pizza Hut **| Delivery Driver | Apr 2022 - Oct 2022**

- Managed time-sensitive deliveries and customer service while working effectively under pressure.

Porterble Driving School **| Office Administration Trainee | Aug 2020 - Oct 2021**

- Used Excel, online tools and business systems to maintain accurate information while completing a traineeship.

Yeppoon Signs **| Work Experience | 2019 - Two weeks**

- Completed accurate work and provided customer service during a short workplace placement.
